LIEU.CITY FOR MUSEUMS

Lieu.city dynamically generates exhibition rooms and hangs the **artworks** according to the directions of the museum curator. The **HD image** quality is perfect and allows your visitors to feel completely immersed in the virtual visit.

YOUR MUSEUM WITH LIEU.CITY

Museums can request **3D modeling** of their actual spaces, so as to faithfully reflect their reality.

GUIDED TOURS

A NEW WAY TO ORGANIZE YOUR GUIDED TOURS

Thanks to **Avatars**, the system allows guided tours with several people connected at the same time, either by invitation, free or for a fee.

In addition, through the **chat** or **avatar room** option, all exhibitors will be able to interact with the visitors within their exhibition space in real time.

UNIQUE LESSONS

You can also conduct unique lessons for your class inside the museum with LIEU.city. Your students will be able to explore the artworks by analysing them with a creative and engaging method.

A NEW WAY OF TEACHING

Design innovative educational VR paths to teach young children about art, within a specially designed environment, where they discover great artists and their most famous masterpieces. Young visitors, in the interactive rooms, can totally immerse themselves in discovering the artworks hanging on the walls of the museum, which become interactive through videos and games that stimulate an exciting learning.

The stories of the artworks and artists are told in a simple and entertaining way, with the aim of stimulating the interest and child's enthusiasm for art and culture.

PERSONALIZED CONSULTING AND HELP DESK

Do you need support?

LIEU.city offers a **personalized service** to help you take your first steps in the Metaverse.

HOW CAN I CREATE MY OWN MUSEUM IN THE METAVERSE?

Not convinced?

Schedule a **demo presentation** with our experts, they will explain to you in details all the possibilities of the LIEU.city Metaverse, of course without any commitment.
